Workout A / Monday

Chest, rows & scapula

1. Chest-supported row

3 x 10-12 reps

Keep your chest on the pad. Let your shoulder blades move along your ribs without forcing them together or shrugging.

2. Incline dumbbell press

3 x 8-12 reps

Keep your back supported. Use a moderate incline and comfortable depth without excessive arching.

Workout A / Monday

Chest, rows & scapula

3. Single-arm seated cable row

3 x 10-12 reps per side

Keep your torso still instead of rotating with your arm. Use the same load on both sides.

4. Machine chest press

3 x 10-12 reps

Adjust the seat to fit. Keep your back supported and your shoulders away from your ears.

Workout A / Monday

Chest, rows & scapula

5. Rope face pull

3 x 12-15 reps

Use a light load. Pull the rope toward your face without tilting your head back or jerking.

6. Reverse fly

2 x 12-15 reps

Use a machine or cables. Move smoothly without forcing your shoulder blades together.

Workout A / Monday

Chest, rows & scapula

7. Pallof press

3 x 10-12 reps per side

Resist rotation from the cable. Breathe out as you extend your arms.

8. Dumbbell curl

2 x 10-15 reps

Keep your elbows near your sides and avoid swinging. The original plan allows 2-3 sets; start with 2.

Workout A / Monday

Chest, rows & scapula

9. Cable triceps pushdown

2 x 10-15 reps

Keep your elbows at your sides. Do not lean your body over the handle. Start with 2 of the original 2-3 sets.

Workout B / Wednesday

Legs, core & shoulders

1. Goblet squat

3 x 8-12 reps

Hold a light weight at your chest and use a comfortable depth. Hack squats are an alternative from the plan. Stop if symptoms appear and discuss a suitable option with your clinician.

2. Bulgarian split squat

3 x 8-10 reps per side

Hold a rack with one hand for balance. Control the movement without chasing extra depth.

Workout B / Wednesday

Legs, core & shoulders

3. Hip thrust

3 x 10-12 reps

Lift through your glutes without overextending your lower back. Start with a comfortable load.

4. Leg curl

3 x 10-15 reps

Seated or lying. Adjust the pad and machine axis, and keep your hips on the support.

Workout B / Wednesday

Legs, core & shoulders

5. Lateral raise

3 x 12-20 reps

Raise within a comfortable range without jerking or shrugging.

6. Cable Y-raise

2 x 12-15 reps

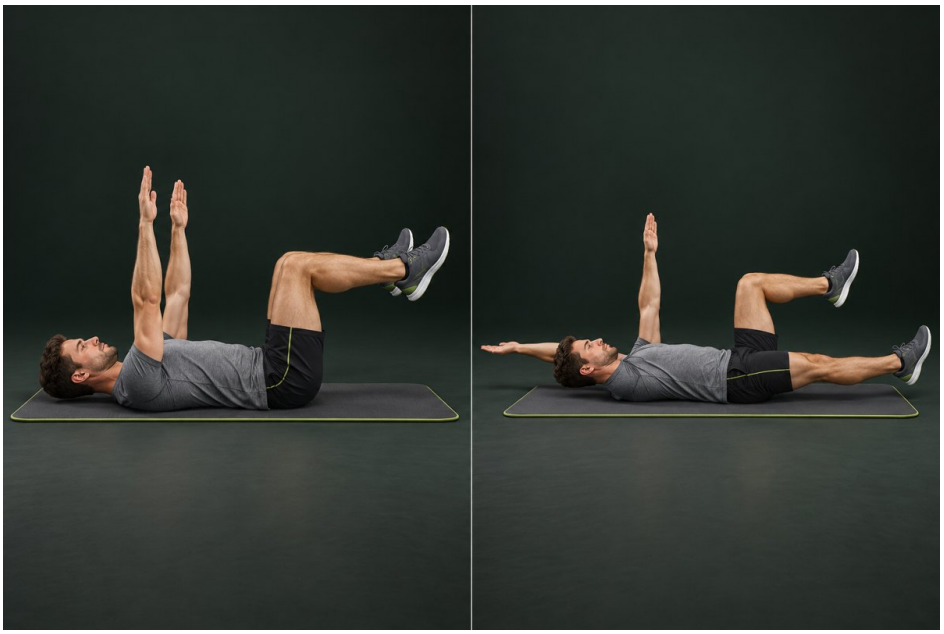

Use a light load and lift your arms diagonally into a Y. Start with 2 of the original 2-3 sets.

Workout B / Wednesday

Legs, core & shoulders

7. Dead bug

3 x 6-10 reps per side

Slowly lower the opposite arm and leg. Shorten the range if you lose control of your trunk.

8. Side plank

2 x 20-40 seconds per side

Breathe steadily and do not sink into your shoulder. A bent-knee variation is fine. Start with 2 of the original 2-3 sets.

Workout C / Friday

Back, chest & arms

1. Neutral-grip lat pulldown

3 x 8-12 reps

Pull in front of you toward your upper chest without jerking or leaning far back.

2. Single-arm lat pulldown

3 x 10-12 reps per side

Keep your pelvis and ribs stable. Do not lean sideways.

Workout C / Friday

Back, chest & arms

3. Flat dumbbell press

3 x 8-12 reps

Keep your feet stable and your back supported. Use a comfortable range without stretching through pain.

4. Seated cable row

3 x 10-12 reps

Use chest support if available. Keep your torso stable without rocking.

Workout C / Friday

Back, chest & arms

5. Cable fly

2 x 12-15 reps

Keep a slight bend in your elbows. Avoid taking your arms too far behind you or stretching through pain.

6. Face pull

2 x 15 reps

Use a light load and smooth movement. Cable external rotation is an alternative from the plan.

Workout C / Friday

Back, chest & arms

7. Lateral raise

2 x 15-20 reps

Keep your shoulders away from your ears. Start with 2 of the original 2-3 sets.

8. Biceps curl

3 x 10-15 reps

Use dumbbells or a cable. Keep your torso still and lower the weight with control.

Workout C / Friday

Back, chest & arms

9. Cable triceps pushdown

3 x 10-15 reps

Extend your elbows without moving your upper arms or leaning your whole body forward.

10. Bird dog

2 x 6-8 reps per side

Reach with opposite arm and leg without rotating your pelvis. Start with 2 of the original 2-3 sets.
